

PolyFrame

Desk Lamp, Style A/B

In keeping with VOLDT's founders' architectural background, PolyFrame objects express the structural efficiency of famed lattice structures dating back to the 1960s: connected nodes joined by simple struts. With a modern day twist, we've refined the series into sculptural forms with a presence all their own.

MATERIAL: **POLYAMIDE, WOOD, BRASS**
STRUCTURE: **1/2" DIAMETER DOWELS**
APPLICATION: **INTERIOR**
UL LISTING: **E365544**
CORD LENGTH: **~12'**
