

# PolyFrame

Coffee Table

In keeping with VOLDT's founders' architectural background, PolyFrame objects express the structural efficiency of famed lattice structures dating back to the 1960s: connected nodes joined by simple struts. With a modern day twist, we've refined the series into sculptural forms with a presence all their own.

MATERIAL: **POLYAMIDE, WOOD, BRASS**  
STRUCTURE: **1/2" DIAMETER DOWELS**  
APPLICATION: **INTERIOR**

## NODE FINISHES

|       |           |             |      |
|-------|-----------|-------------|------|
|       |           |             |      |
| black | gun metal | muted green | navy |
